**Getting started on Web Assign – 2017-18**

1. Go to www.webassign.net.  Click on the login button.
2. Click on "I have a class key".
3. Now enter your class key in the dialog box and click "submit".  Your class key and other information is shown below.

| Instructor | Section | Class Key |
|---|---|---|
| Lisa Hursey | AP Chemistry, section (no name) | northgwinnett.ga 1668 4081 |

4. You should next get a confirmation screen.  If this is the correct class, select "yes" and continue.
5.  Now, it is time for you to create your account.
6. From here on, follow the prompts so that you can set up your password, etc.  You are responsible for entering valid credit card information.  The cost is $10.50 for the school year.
7. The due dates for your summer assignments are listed below.  All assignments will be available to you starting May 18, so if you wish you may get them all finished immediately.  All assignments are due by 11:30 pm of the date listed.  We all have summer plans – include finishing Web Assign in your plans!  You are responsible for keeping up with all due dates; there is an option when you set up your Web Assign account that will automatically send you a reminder email.  I **highly** recommend that you select this option (and so do previous students!).

| Assignment | Due Date |
|---|---|
| Ch 1 | June 16 |
| Ch 2 | June 30 |
| Ch 3 | July 21 |

During the summer, I will try to check my school email each week.  Let me know if you have questions!!!  However, if you have a question about any assignment, do not send an email on the day it is due and expect an immediate response.

*Web Assign is EXTREMELY particular about significant digits (figures).  Please see the earlier notes about this.

I hope you have a great summer and I am really looking forward to next year!
